On-the-Go Flash Drives

Data transfer between platforms without the use of data cables.

This Flash drives are a type of USB flash drive that can be directly connected to a smartphone or tablet, without the need for a computer as an intermediary.

One of the most significant developments in the field of data storage and transfer has been the emergence of OTG (On-The-Go) flash drives.

Maxema Antibacterial: design and safety

Take care of yourself even when you write: the plastic we use on our Antibacterial collection prevents bacteria from settling on pen surfaces and passing from one hand to the other.

The plastic used is antibacterial

Certified antimicrobial additive releases silver ions and prevents bacteria from settling on the surfaces of the pen.

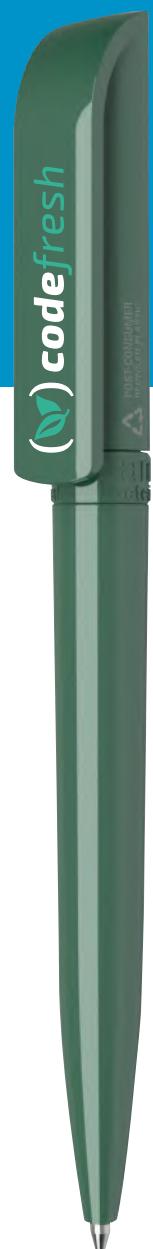

Bacteria: up to 99,99% less

Laboratory tests have shown that up to 99,99% of the bacteria on the pen are destroyed.

We Care about your health

Some bacteria can cause disease and infections: make your life still safer, even when you write.

RECYCLED PLASTIC PENS

Being Eco Friendly is a Way of Life.

For our recycled plastic pens we use materials of European origin that are 100% derived from postconsumer products.

When appropriately treated, they guarantee high quality plastics, certified and compliant with RoHS and REACH regulations. The production process consists of collecting WEEE material (waste electrical and electronic equipment), carefully separating the plastic from metal, glass and ceramic residues, and turning it into granulate material. This is how the Recycled line is made.

maxema®

Recycled Collection

Change is a choice and it depends on each of us.

To change means to choose responsible, sustainable consumption that prefers quality to quantity, better still if the raw materials come from recovery chains

Choose Better. Make it last.

Who said good things don't last? At Maxema, we do everything we can to make our pens live for as long as possible. A Maxema pen loves nature: the longer it lasts, the less it pollutes. And, since one life seemed too short for us, we have created a new line in recycled plastic, beautiful to look at and even more environmentally friendly

Plastic Pens

A Timeless Tool for Brand Promotion

In a world saturated with digital marketing and fleeting online ads, the humble promotional pen remains a steadfast and highly effective tool for brand promotion.

Promotional plastic pens, in particular, offer an unbeatable combination of practicality, affordability, and wide-reaching visibility. Far from being a relic of the past, these pens are a tangible representation of a brand, a functional item that users can hold, use, and remember. They serve as a constant, subtle reminder of your company's name, logo, and message, making them an essential component of any successful marketing strategy.

Where to Distribute Promotional Pens

Trade Shows and Conferences: Using pens as a go-to giveaway item to attract visitors.

Corporate Events and Meetings: Providing branded pens for attendees to take notes.

Retail and Point-of-Sale: Giving pens as a complimentary gift with a purchase.

Mailers and Direct Marketing Campaigns: Including a pen in a promotional package for a tangible touchpoint.

Internal Use: Providing employees with branded pens to foster a sense of unity and professionalism.

Tips for Using Promotional Metal Pens Effectively.

Choose a high-quality pen: Investing in a quality metal pen will ensure that your promotional item is well-received and reflects positively on your brand.

Personalize your pens: Add your company logo, contact details, or a motivational message to make your promotional metal pens stand out.

Distribute strategically: Hand out your promotional metal pens at events, trade shows, or as gifts to valued customers to maximize their impact.

Follow up: After distributing your pens, follow up with customers to see how they are enjoying their new pen and remind them of your products or services.

Glass Bottles with Black Lid and Sadu design Sleeve

Product Size : 70 x 260 mm
Material : Glass and Fabric material
Category : Drinkwares, Bottles
Printing : [Screen Printing] [UV DTF]

A traditional form of weaving and embroidery practiced by Bedouin people, across the Arabian Peninsula, including countries like Kuwait, Saudi Arabia, and the United Arab Emirates.

Sadu patterns are characterized by their intricate and often bold geometric designs. You'll see a lot of triangles, squares, diamonds, and linear patterns, arranged in rhythmic and symmetrical repetitions.

"Every single piece of plastic you choose not to use is a victory for our planet. Ecojuco makes that victory effortless, durable, and delightfully stylish."

Where sustainability meets style. In a world increasingly burdened by plastic waste, we offer a simple yet powerful solution: beautiful, durable products crafted from natural jute fiber. We are more than just a company; we are a commitment to a greener planet, providing you with high-quality bags that are 100% biodegradable, eco-friendly, and support fair-trade practices. Choosing Ecojuco is choosing a better future, one stylish bag at a time.

**Bespoke Designs.
Crafted with Care.**

**Carry Consciously.
Live Lightly.**

Exceptional Durability: Jute is one of the strongest natural fibers, making our bags tough enough to handle everything from your weekly grocery haul and farmers market finds to books and beach gear.

Planet-Friendly: Every Ecojuco bag is made from rapidly renewable jute, consuming minimal resources and leaving zero plastic footprint. When its long life is finally over, it will naturally decompose, returning to the earth without harm.

Comfort & Style: Featuring soft, reinforced handles and a clean, minimalist design, the tote is comfortable to carry and pairs perfectly with any aesthetic. It's the essential carry-all for the conscious consumer.

Keychains

The metal keychain with bamboo is a testament to thoughtful design. It represents a harmonious blend of nature and industry, creating an accessory that is both practical for daily use and visually appealing, making it a popular choice for corporate gifts, promotional items, or a stylish personal touch.

This innovative combination brings together the best of two distinct materials: the natural warmth, sustainability, and unique grain patterns of bamboo, with the robust durability, sleek finish, and versatile design capabilities of metal.

The Ultimate in Comfort and Performance

Polo-Shirts (Unique Blend)

The Key Feature of the fabric is that it is constructed in a way where the inside of the fabric worn next to the skin is predominantly cotton and the outside is polyester. this therefore combines the comfort of cotton with the hardwearing properties of polyester.

A special technology, fabric which protects the skin from harmful UV rays. UV protection avoids sunburn and protects your skin for long period, which keeps you healthy and fresh. Sweat absorbent feature keeps the body dry and comfortable; it pulls the moisture away from the skin to the surface of the fabric.
